

Case Study **SoftWall Cleanroom Provides Sterile Conditions at Medication Label Manufacturer**

RMAC Surgery Inc. required disinfected, germ-free conditions to manufacture its PharmaTags® sterile medication labels. Soper's designed, manufactured and installed a SoftWall Cleanroom.

The class 10,000 Cleanroom is manufactured using 20 mil anti-static PVC and includes HEPA filters and extra lighting in the ceiling.

The end result: An open concept work environment that meets the rigid conditions of a leading medical supply company.
