

Low Temperature / Food Grade PVC Strip

**Email us for
a fabric sample.**

Applications:

- ◆ Cold storage areas
- ◆ Exterior applications

All of the ingredients of this strip meet the USDA requirements for incidental contact with meat, poultry, and dairy products.

Property	
Width	4", 6", 8", 12", 16"
Thickness	.060", .080", .120", 160"
Transparency	Clear with Blue Tint
Specific Gravity (+0.03)	1.21
Hardness ' A' (+3) .15 seconds	70
Tensile strength (PSI)	2000
Ultimate Elongation (%)	400
Low Temperature	-30°F to 150°F
Normal Temperature Range	-30°C to 60°C
Flame Spread ASTM E84-01	170
Smoke Density	>450

Chemical Resistance:

Resists alcohols, aliphatic hydrocarbons and oils. Resists acids and alkalis. Can be affected by ketone and esters.

Formulated with USDA accepted materials.

Special plasticizers are added to the basic compound to reduce fading and yellowing due to ultraviolet light.

The data represented above are reliable to the best of our knowledge. However, no warranty of any kind is made regarding individual results to be obtained when using this material, nor is freedom from any patent implied. These are typical values and may vary from batch to batch. These are not specifications and variance from these values may occur.
