

Retractable Curtain Systems

Cost-effective flexibility to meet rigid plant maintenance and design standards.

This multi-curtain wash bay system maximizes use of shop floor space

Soper's retractable curtains can be large or small. This outdoor application protects the loading dock from the elements.

Soper's retractable curtains can be used in an aircraft hangar

From heavy industry to the automotive aftermarket – from aircraft hangars to recreational facilities - there is always a need to temporarily enclose or section off a certain area.

Soper's retractable curtain systems contain dust & fumes, welding flash, temperature, noise, and overspray.

Whatever the challenge, a Soper's retractable curtain system has it covered.

Benefits

- Maximize floor-space utilization
- Improve efficiencies
- Improve employee safety and productivity
- Reduce energy costs
- Reduce defects and reworks
- Quick, efficient, and clean installation with little or no downtime
- Economical

Features

- Available in Woven Polyethylene, Vinyl Coated Polyester, and/or Polyvinylchloride
- 16 gauge heavy-duty track with nylon or steel rollers
- Ceiling or floor mounted
- Motorized option available
- Flame, chemical, and mildew resistant
- Custom-designed to meet your specific application

Applications

- Welding enclosures
- Wash bays
- Spray booths
- Aircraft hangars
- Recreational facilities
