

# The Soper's Port-A-Tank

*Improving the efficiency of rural firefighting.*

Courtesy of Riverview Fire & Rescue (New Brunswick)

*A rugged, durable portable water tank designed specifically for rural firefighting.*

- Liner manufactured of 22 oz/yd<sup>2</sup> yellow vinyl coated polyester (VCP)
- Liner laces on a heavy gauge, tubular, steel frame (aluminium frames available)
- Includes a 10" quick-drain tube which, when lowered, allows fluid to drain from tank within seconds
- Available in three standard sizes : 1000, 1500, and 2000 Imperial gallons (Custom sizes also available)

Rugged  
Efficient Durable

- Improves efficiency and effectiveness of rural firefighting by enabling firefighters to empty water from tanker truck into Port-A-Tank and make the trip for more water
- Quick, easy set-up
- Port-A-Tank folds to a fraction of their open size, allowing for convenient storage
- An economical solution
